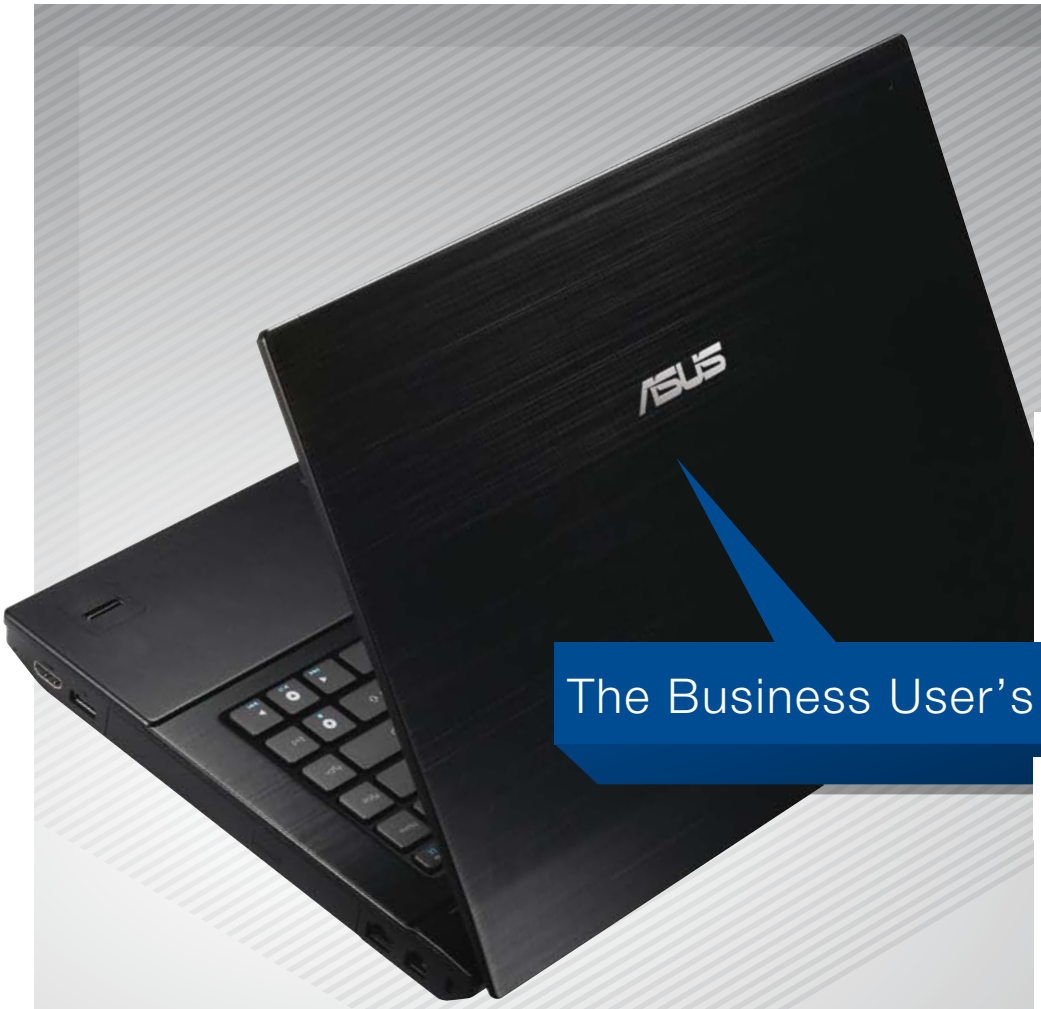
Inspiring Innovation • Persistent Perfection

B43S Notebook



THE NEW GOLD STANDARD IN BUSINESS CLASS COMPUTING.

Equipped with an unprecedented package of features, the B43S is the first notebook to offer AMD® Eyefinity™ for improved productivity and a three-year Sonata® Long Life Battery as a standard feature (select models). The notebook is outfitted in a scratch-resistant aluminum casing, comes with a plethora of security features such as Intel® vPro™, and offers docking station support. A spill-proof French / English keyboard is included for convenient typing in either language. Tested to a much higher standard than the typical notebook, the B43S is more reliable in an environment where downtime is unacceptable.

The Business User's New Best Friend

ASUS | B43S Notebook

B43S Notebook

AMD Eyefinity Technology expands the visual workspace and boosts productivity by supporting up to two additional independent displays.

Docking station support lets users quickly connect peripherals, power, and communication devices, allowing business professionals to enjoy both the functionality of a desktop computer and the mobility of a notebook computer (docking station sold separately).

World's first laptop to feature the Sonata Long Life Battery (select models) as a standard feature, which lasts up to three times as long as a normal battery and comes with a 3 year warranty.

The notebook's Intel® Anti-Theft Technology disables a PC if it is lost or stolen and Intel® v Pro™ reduces maintenance costs and downtime with remote configuration, diagnosis, isolation, and repair.

ASUS ShockShield utilizes motion sensors and additional anti-shock cushions to protect the hard drive from being damaged during transport, safeguarding important user data.

The notebook's bilingual keyboard supports easy entry in either French or English.
